BrailleNote **evolve**

Built for today. Ready for what's next

Simply the most powerful, familiar, and accessible braille computer ever designed. **BrailleNote evolve** combines the simplicity of KeySoft with the power of Windows 11 Pro — built to adapt, empower, and grow with every learner and professional.

Learn. Create. Achieve.

Built braille-first, **BrailleNote evolve** offers a trusted experience for every user. From the first day of school to the workplace, it delivers everything you expect from BrailleNote — and more.

With its familiar **KeySoft interface** for effortless navigation, a full **Windows 11 Pro environment** for flexibility and access to modern tools, and fast performance powered by **32 GB of RAM**, evolve delivers a seamless, responsive experience wherever you work or learn.

evolve

Lets you choose how you work and learn,
striking the **perfect balance** between
simplicity and **power**.

From classroom to career

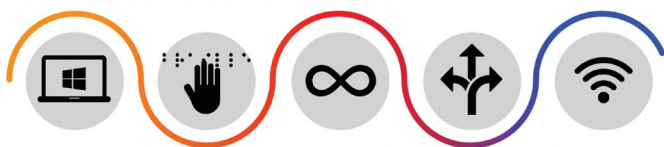

Start with KeySoft. Explore Windows at your own pace. Whether you're a beginner or an advanced user, **BrailleNote evolve** supports your growth every step of the way.

- Begin with KeySoft for instant productivity
- Add Microsoft 365 to work independently and efficiently
- Advance to native Windows with confidence

evolve

Grows with you — building the skills that prepare you for **education, employment, and beyond.**

Braille productivity, evolved

BrailleNote evolve redefines what a notetaker can be. Secure, connected, and future-proof, it's designed to empower learners for tomorrow's digital world — without losing the comfort of today's trusted workflow.

The HumanWare promise

With HumanWare, you get more than technology — you get partnership. From training to lifelong support, we're here to help every learner and educator succeed.

Learn. Achieve. Evolve. — From KeySoft to Windows.
