

Brilliant BI X

THE SMART, INTUITIVE, CONNECTED FAMILY OF BRAILLE DISPLAYS

**INTELLIGENCE,
CONNECTIVITY,
ENJOYMENT!**

A redefined family of Brilliant refreshable Braille displays has arrived! The NEW Brilliant BI X Series will help you stay connected, download books from many participating online libraries and share information easily with your peers. You will enjoy the intuitive, seamless user experience of KeySoft Light, the HumanWare flagship accessibility suite designed to make you more productive. Including the Brilliant BI 40X and the Brilliant BI 20X, this is the Brilliant idea you have been waiting for!

Humanware™
see things. differently.

CARRY YOUR LIBRARY IN YOUR POCKET **AND READ** **AT YOUR SPEED!**

Connect via your Wi-Fi-enabled Brailiant BI X and use the Victor Reader app to download resources instantly from online libraries such as Bookshare, NLS BARD, NFB Newline and many more to follow. Read a book effortlessly using the HumanWare signature thumb keys, or through the enabling of Automatic scrolling that will refresh the braille display to your reading speed.

CUSTOMIZE YOUR BRAILLE EXPERIENCE

Have full control over your writing and reading experience by selecting the braille table of your choice. Hide or show applications by customizing KeySofts Lite Main Menu and configure thumb keys to match your braille reading preference. The Brailiant BI X series gives you flexibility through its storage options and the included onboard braille translation ensures compatibility with various file types. Saving, opening and transferring data could not be easier.

GET CREATIVE

Take notes during your meeting using the KeySoft Lite editor application, KeyPad. Easily switch to your connected screen reader to send emails or a text. The ergonomic keyboard of your Brailiant BI X, adds to the enjoyment of writing comfortably and in near silence.

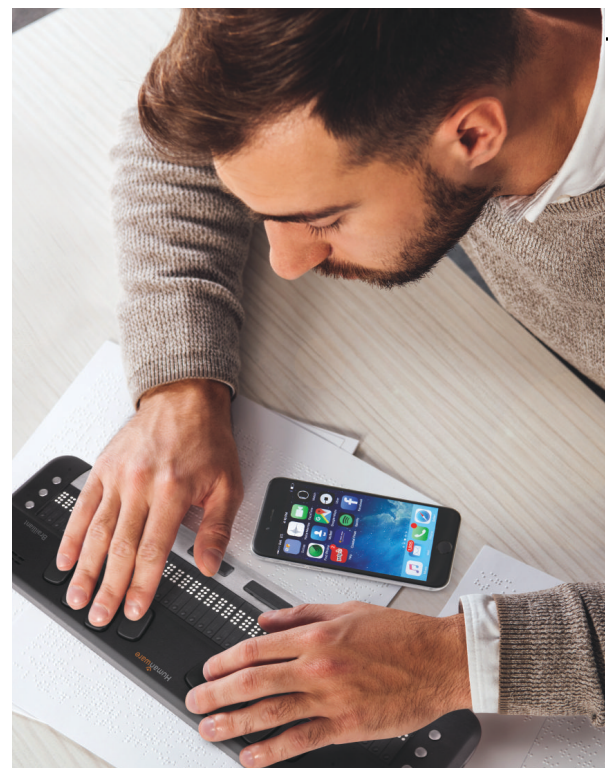

USER-DRIVEN EXPERIENCE WITH EVERY KEYSTROKE

KeySoft Lite is a user-friendly interface that lets you accomplish daily tasks through its onboard KeySoft suite of applications. It powers both Brailiant BI 40X and Brailiant BI 20X providing an intuitive transition to those who have previously used any KeySoft-enabled HumanWare device.

Brailiant™ BI 40X

The NEW, future-ready 40-cell refreshable braille device is designed with connectivity and productivity in mind. With the introduction of Bluetooth 5 Wireless technology the Brailiant BI 40X is the first to market braille display to take advantage of the robust and reliable connection, allowing for a pairing that is 2x faster and capable of 4x the distance over previous Bluetooth technology. The Brailiant BI 40X connects to multiple devices at once and delivers a smarter, more user-friendly experience to new refreshable braille display users.

Brailiant™ BI 20X

The NEW, portable 20-cell refreshable braille device is the perfect companion to any mobile device that makes reading enjoyable while keeping you connected on the go.
