

Mantis Q40™

KEEPING BRAILLE AT YOUR FINGERTIPS, ANYTIME AND ANYWHERE

A FIRST-OF-ITS-KIND KEYBOARD AND REFRESHABLE BRAILLE DISPLAY

Keep braille at your fingertips anytime, anywhere, with the Mantis Q40: a first-of-its-kind Bluetooth® keyboard and 40-cell refreshable braille display from HumanWare and APH. With the Mantis, students no longer need to choose between a keyboard or a braille device – at the same time a student is typing on the Mantis, the refreshable braille below the keyboard is providing a multimodal braille complement to the screen reader, making it easier to participate in, and succeed at school.

**SIMPLE,
EASY,
SMART,
AND
ENJOYABLE**

The new Mantis Q40 is truly a first-of-its-kind. It is a unique, smart, all-in-one solution offering braille and a QWERTY keyboard. Connect to multiple host devices using the familiar keyboard, which allows reading braille and writing more efficient. It also features intuitive onboard smart applications with internal storage to create notes and download books from online libraries that ultimately make you more productive! Mantis Q40 is the only device you will need on all occasions of your workflow.

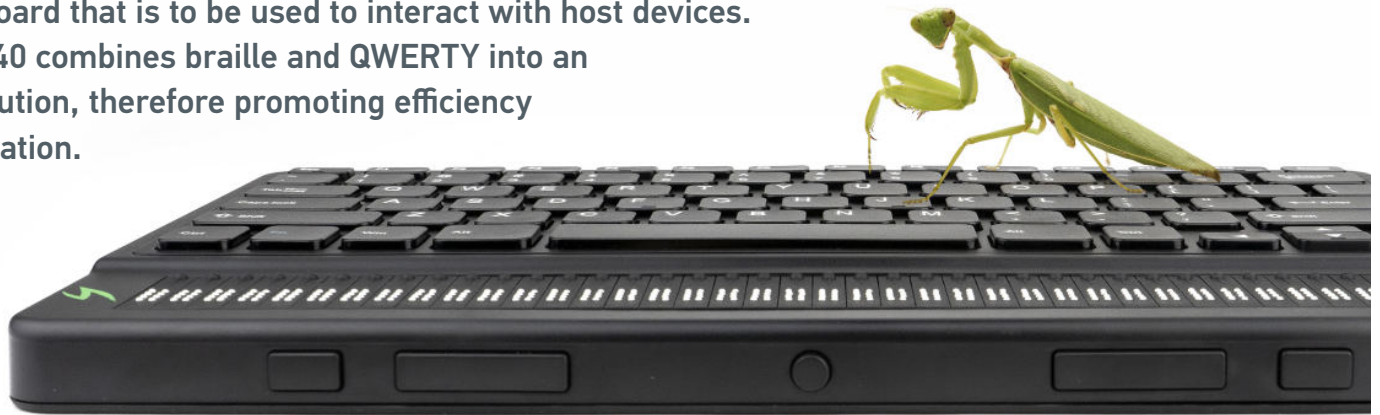

Do you find yourself reaching over to use the QWERTY keyboard on your laptop or computer? With Mantis Q40, there is no more need to reach over and type on a keyboard. The braille and keyboard combined allow the user to sit back and be more in comfort when interacting with host devices like a Laptop.

THE BRAILLE DISPLAY THAT ANSWERS YOUR NEEDS

HumanWare's core mission is to offer innovative products to people with visual impairments that allow them to live independently and compete effectively in today's world. HumanWare and APH are proud to introduce Mantis Q40, an innovative tool that answers the basic needs of people with visual impairments looking for a QWERTY keyboard with a 40-cell display all built-in one device to use at school.

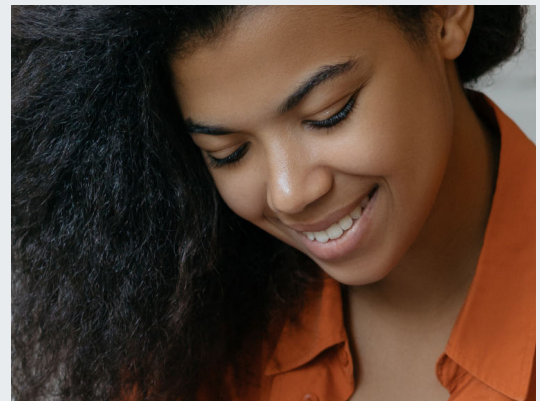

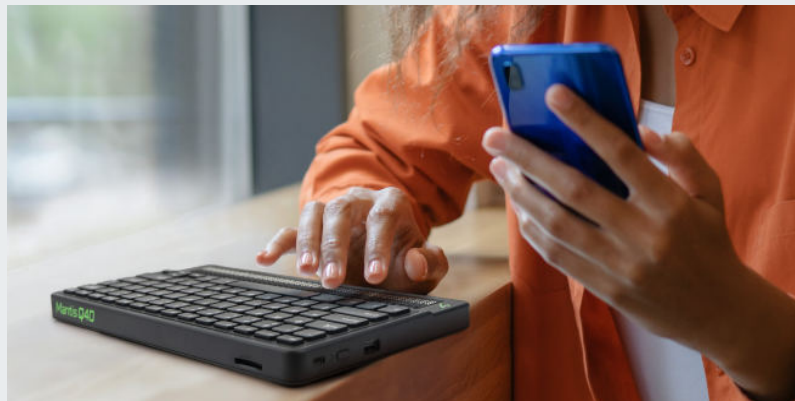

For students who are visually impaired, the Mantis Q40 is the only keyboard that is to be used to interact with host devices. The Mantis Q40 combines braille and QWERTY into an all-in-one solution, therefore promoting efficiency and familiarization.

WHY CHOOSE MANTIS Q40?

- A doorstep into STEM activities and work expectations using a full QWERTY keyboard.
- Braille is always at your hands.
- Lightweight and thin to fit in a school bag.
- Toggles between braille and QWERTY.
- Convert Print to braille on the fly.
- Use with multiple devices, tablets, and computers.
- Take a quick note without having to wait for the PC to startup.
- Instant access to books from online libraries such as Bookshare.

AN EFFICIENT, SMART AND AN ALL-IN-ONE BRAILLE DISPLAY
THAT MAKES YOU MORE PRODUCTIVE!

FEATURES & BENEFITS

All-in-one, full-size QWERTY laptop-style keyboard and built-in, 40-cell refreshable braille display – students no longer need to sacrifice the use of braille when using a keyboard.

Supports up to 5 Bluetooth connections, along with one USB connection.

Functions as another device's keyboard when connected via USB or Bluetooth; functions as a stand-alone device when not connected.

16 GB of internal storage.

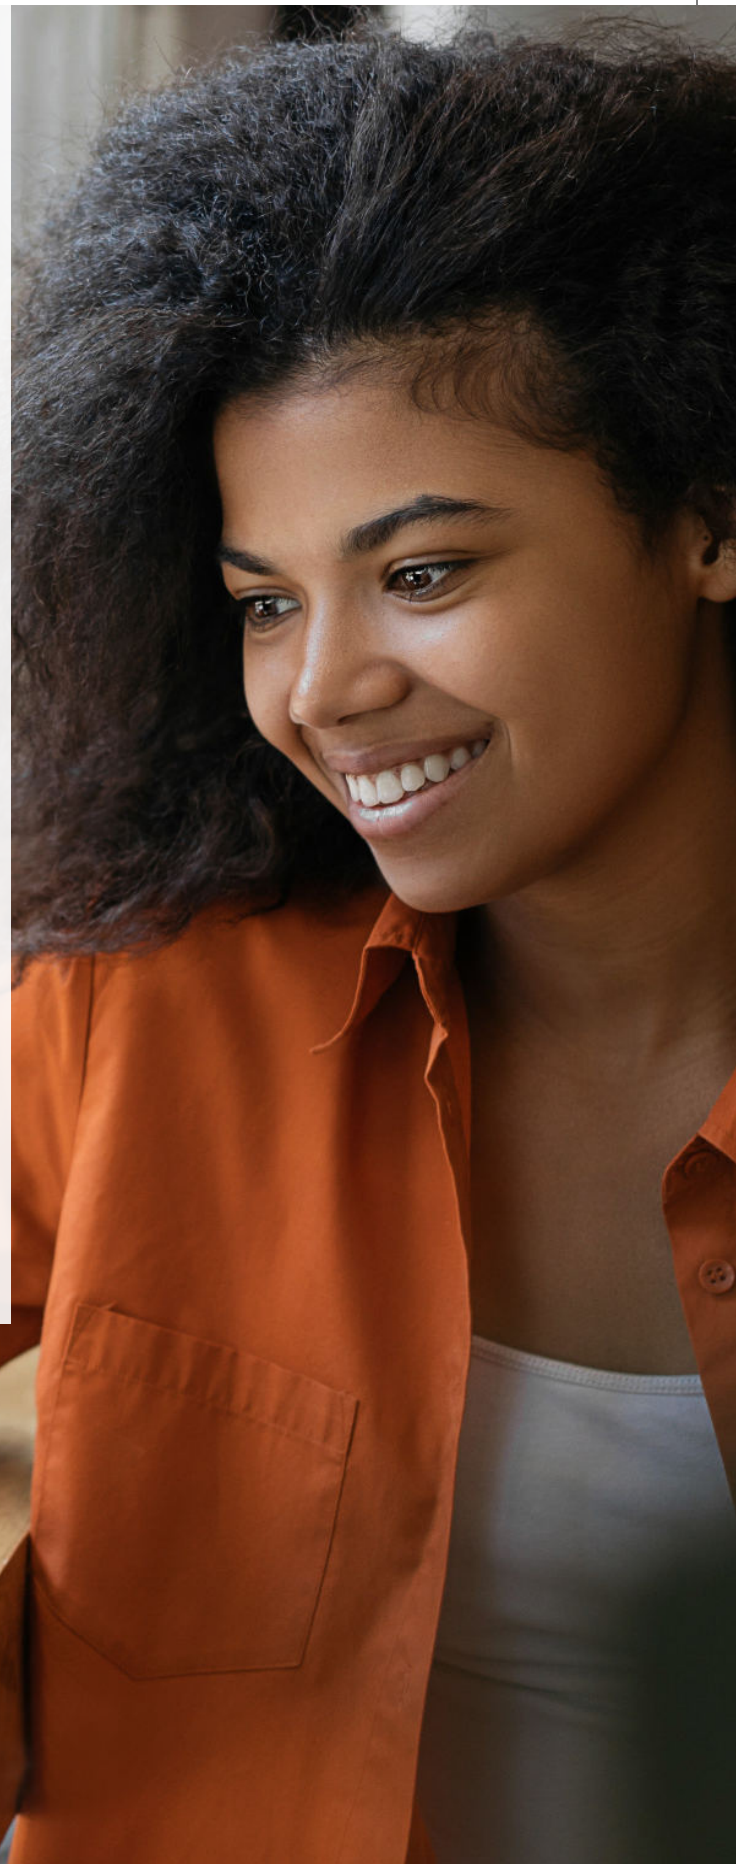

Thin and lightweight, easily fits in a laptop bag or backpack.

Contains the following built-in applications:

- Basic editor to function as a user's pen and paper. Supports .doc, .docx, .txt, .brf, and .brl files.
- Book reader to download and read books in braille.
- Calculator to perform basic mathematical calculations.
- Clock to check the date and time.
- File manager to organize one's work.

Compatible with:

- Windows 8 and above using Jaws 18+ and NVDA.
- macOS Catalina 10.15.5 + or iOS 13.5.1.
