

Odyssey

The ultimate hands-free reader

Discover a new reading experience with the Odyssey, a hands-free, compact, and lightweight text-to-speech reader.

The Odyssey text reader turns various printed text - from letters, books, magazines, newspaper articles, medical packaging, food labels, and more - into spoken words. It reads text aloud, regardless of orientation, whether vertical or horizontal.

A user-friendly reading machine

It's ideal for individuals who are blind, have low vision and anyone encountering visual loss, and it features large tactile keys along with advanced AI for effortless reading.

Storage capacity and multilingual audio options

With ample memory to store up to 1,000 texts, Odyssey offers adjustable reading speeds and delivers human speech in English, Spanish, or French. Enjoy listening through the built-in speaker or wireless headphones for a personalized experience.

Key features:

- Advanced AI for clear and comprehensible text-to-speech
- Suitable for small text and large A3 documents
- Easy storage with foldable arm
- Save and store up to 1,000 texts
- Adjustable reading speeds
- Real human voices in multiple languages
- Built-in speaker and Bluetooth headphone compatibility

Experience the freedom and ease of hands-free reading today!
