

Victor Reader Stream 3

Audio and text-to-speech reader

For those who cannot read or for whom it requires great effort, there are audio solutions. Combined with the daisy mp3 player function, our Victor Reader Stream 3 acts as both an audio player and a digital talking book reader.

Harness the power of wireless content access

Featuring a fully tactile interface, the Victor Reader Stream 3 is a handheld audio player that lets you listen to books, newspapers, web radio, music, and other online resources.

Handheld media player

Simple to use, it packs all your media into one place and gives you 15 hours of battery life, leaving more time to enjoy your content via its integrated speakers, wired headphones or a Bluetooth speaker or headphones.

With its lightweight and compact design, Victor Reader Stream 3 delivers hours of listening pleasure — anywhere!

Connect to infinite sources of knowledge and entertainment

Far more than just another audio player, the Stream's wireless capabilities open a world of possibilities to people who are blind or visually impaired.

Available in various voices and languages, Stream also allows recording and your own notes.
